Centre for European Economic Research (ZEW), Mannheim

The ZEW is a non-profit economic research institute with the legal form of a limited liability company (GmbH). Founded in 1990, it took up work in April 1991 and meanwhile belongs to the leading German economic research institutes, which are all members of the Leibniz Association. The ZEW is engaged in the field of applied empirical economic research. It has particularly distinguished itself nationally and internationally by its work on internationally comparative issues in the European context. The ZEW's main tasks comprise economic research, economic policy counselling, and knowledge transfer. The institute primarily addresses decision makers in politics, trade and industry, and administration as well as scientists and the interested public.
