TABLE OF CONTENTS

EXECUTIVE SUMMARY	ix
PREFACE TO THE REPORT.....	7
OBJECTIVES OF THE RESEARCH PROJECT.....	10
INTRODUCTION	11
1.1 NEW TECHNOLOGY BASED FIRMS, HIGH-TECH START-UPS AND GLOBALISATION	11
1.2 THE IMPORTANCE OF NTBFS	12
1.3 THEORETICAL DIMENSIONS OF INTERNATIONALISATION.....	14
1.4 POLICY DIMENSIONS.....	15
1.5 MANAGERIAL AND OPERATIONAL DIMENSIONS.....	16
1.6 THE COMPARATIVE DIMENSION: GERMANY VS UNITED KINGDOM	17
1.7 OVERVIEW OF THE REPORT	18
2 THEORETICAL BACKGROUND AND THE OPERATIONALISATION OF THE HYPOTHESES.....	21
2.1 THEORETICAL BACKGROUND.....	21
2.1.1 <i>Internationalisation Process Models</i>	21
2.1.2 <i>Internalisation Theory and Transaction Cost Economics</i>	22
2.1.3 <i>Monopolistic Advantage Theory and the Resource-Based View</i>	23
2.1.4 <i>Implications for technology-based start-ups</i>	24
2.2 EMPIRICAL EVIDENCE ON INTERNATIONAL ENTREPRENEURSHIP	24
2.3 FOCUSING OUR RESEARCH OBJECTIVES.....	29
2.4 RESEARCH HYPOTHESES AND MEASUREMENT ISSUES.....	31
2.4.1 <i>Operationalisation of Dependent Variables</i>	31
2.4.2 <i>Operationalisation of Independent Variables</i>	33
3 DESCRIPTION OF METHODOLOGY	35
3.1 CHOICE OF METHOD: COMBINATION OF MAIL SURVEY AND INTERVIEW DATA.....	35
3.2 OPERATIONALISATION OF THE 'NTBF' DEFINITION.....	36
3.3 MAIL SURVEY METHODOLOGY	37
3.3.1 <i>The Questionnaire</i>	37
3.3.2 <i>Identification of Data Sources and Sampling</i>	38
3.3.2.1 <i>The Use of Credit Rating Agencies Data</i>	38
3.3.2.2 <i>German Data Sources and Sampling Procedures</i>	38
3.3.2.3 <i>United Kingdom Data Sources and Sampling Procedures</i>	39
3.3.3 <i>Stratification and Sampling Procedure</i>	40
3.3.4 <i>Mailing and Response Pattern</i>	43
3.3.5 <i>Generating Observation Weights</i>	43
3.4 CASE STUDIES METHODOLOGY.....	44
3.4.1 <i>Interview Methodology and Research Design</i>	44
3.4.2 <i>Conceptual Framework and Definition of Patterns</i>	45
3.4.3 <i>Matching Criteria</i>	47
3.4.4 <i>Data Collection</i>	50
3.4.5 <i>Case Study Analysis: Method and Process</i>	50

4	DESCRIPTIVE ANALYSIS OF THE DATA SET.....	54
4.1	INTRODUCTION.....	54
4.2	FIRM-SPECIFIC CHARACTERISTICS	54
4.2.1	<i>Size Distributions of Firms.....</i>	<i>54</i>
4.2.2	<i>Age Structure of Surviving New Ventures.....</i>	<i>57</i>
4.2.3	<i>Industry Distribution.....</i>	<i>58</i>
4.2.4	<i>Description of the Knowledge Base of the Firms</i>	<i>62</i>
4.3	FOUNDER-SPECIFIC CHARACTERISTICS	65
4.3.1	<i>Size of Founding Team and Work Experience Prior to Start-Up</i>	<i>66</i>
4.3.2	<i>Joint Work Experience in Founding Team.....</i>	<i>66</i>
4.3.3	<i>Prior Work Experience of the Founding Team in an International Environment.....</i>	<i>67</i>
4.3.4	<i>Shortages of Skills.....</i>	<i>68</i>
4.4	CHARACTERISTICS OF THE NTBFS RESPONDENTS' MOST IMPORTANT PRODUCTS	70
4.4.1	<i>Classification of the Best-Selling Product/Service.....</i>	<i>70</i>
4.4.2	<i>Potential of Product Differentiation and Transaction-Specific Sales Effort</i>	<i>72</i>
4.4.3	<i>The Technological Innovativeness of the Best-Selling Product or Service</i>	<i>74</i>
4.4.3.1	<i>Technology Choices Adopted by Respondent Firms</i>	<i>74</i>
4.4.3.2	<i>Competitive Advantage in Terms of Lead Time Over Competitors</i>	<i>76</i>
4.5	MOTIVES AND COSTS OF THE INTERNATIONAL BUSINESS ACTIVITIES OF NTBFS.....	78
4.5.1	<i>Patterns of Motivation to Start International Business Activities</i>	<i>78</i>
4.5.2	<i>Strategic Commitment to International Sales</i>	<i>81</i>
4.5.3	<i>Costs and Constraints of Entering Foreign Markets.....</i>	<i>83</i>
5	DIFFERENCES BETWEEN INTERNATIONALISERS AND NON INTERNATIONALISERS.....	86
5.1	DESCRIPTIVE ANALYSIS	86
5.2	DETERMINANTS OF THE DECISION TO INTERNATIONALISE IN A MULTIVARIATE FRAMEWORK.....	87
5.2.1	<i>Interpretation of the Results of a Probit Model.....</i>	<i>88</i>
5.2.2	<i>Discussion of Results.....</i>	<i>91</i>
5.3	THE DECISION TO INTERNATIONALISE: INTRODUCING A „THRESHOLD“ OF INTERNATIONALISATION	92
5.3.1	<i>Methodological Considerations.....</i>	<i>92</i>
5.3.2	<i>Model Results.....</i>	<i>93</i>
5.3.3	<i>Discussion of Results and Conclusions</i>	<i>95</i>
6	THE DEGREE OF INTERNATIONALISATION.....	98
6.1	METHODOLOGICAL CONSIDERATIONS	98
6.2	DESCRIPTIVE RESULTS	99
6.3	ECONOMETRIC ANALYSIS	100
6.3.1	<i>Comparison of the Results with the Tobit model.....</i>	<i>103</i>
6.4	CONCLUSIONS	104
7	THE TIMING OF ENTRY INTO INTERNATIONAL MARKETS	107
7.1	HAZARD FUNCTIONS AND ECONOMIC DURATION MODELS – SOME METHODOLOGICAL CONSIDERATIONS	108
7.2	DESCRIBING THE TIMING OF FIRST INTERNATIONAL SALES.....	109
7.3	ESTIMATION RESULTS USING HAZARD FUNCTIONS.....	111
7.4	TIMING OF INTERNATIONALISATION AS A RESULT OF MANAGEMENT'S DISCRETE CHOICE	114
7.5	SUMMARY.....	117

8	MARKET ENTRIES: TARGET COUNTRY AND ENTRY MODE	118
8.1	THE TARGET COUNTRIES	118
8.2	SOME DESCRIPTIVE STATISTICS ON ENTRY MODES	119
8.3	DETERMINANTS OF THE CHOICE OF ENTRY MODES	120
	8.3.1 <i>Theoretical Considerations</i>	120
	8.3.2 <i>Regression Results</i>	121
8.4	SUMMARY	126
9	FIRM PERFORMANCE AND EARLY INTERNATIONALISATION	128
9.1	PRODUCTIVITY AND INTERNATIONAL SALES	128
	9.1.1 <i>Specification of the Labour Productivity Equation</i>	129
	9.1.2 <i>Some Specification Problems</i>	130
	9.1.3 <i>Results</i>	130
9.2	FIRM GROWTH AND INTERNATIONALISATION	134
	9.2.1 <i>Distribution of Growth Performance across Young High-Tech Firms</i>	134
	9.2.2 <i>Do International Sales Enhance Firm Growth?</i>	136
	9.2.2.1 <i>Some Issues on the Econometric Specification of Models of Firm Growth</i>	136
	9.2.2.2 <i>Econometric Results and Interpretation</i>	137
	9.2.3 <i>Fast Growing and Fast Shrinking Firms</i>	143
9.3	SUMMARY	147
10	RESULTS OF THE BRITISH AND GERMAN CASE STUDIES	148
10.1	THE DECISION AND TIMING OF INTERNATIONALISATION	148
	10.1.1 <i>Born Internationals</i>	148
	10.1.2 <i>Late Internationalisers</i>	150
	10.1.3 <i>Non Internationalisers</i>	151
	10.1.4 <i>Comparison between the Three Internationalisation 'Types'</i>	152
10.2	GROWTH AND INTERNATIONALISATION	153
	10.2.1 <i>Fast Growing Firms</i>	153
	10.2.2 <i>Low Growth Firms</i>	154
	10.2.3 <i>A Comparison of Fast Growth and Low Growth Firms</i>	157
10.3	FORMAL AND INFORMAL SOURCES OF VENTURE CAPITAL	158
10.4	PUBLIC POLICY	161
11	SUMMARY AND CONCLUSIONS	163
11.1	OBJECTIVES OF THE RESEARCH PROJECT	163
11.2	RESEARCH FINDINGS BASED ON THE QUANTITATIVE APPROACH	164
11.3	RESULTS FROM THE BRITISH AND GERMAN CASE STUDIES – THE QUALITATIVE RESEARCH DIMENSION	175
11.4	DIFFERENCES BETWEEN GERMAN AND UK NEW TECHNOLOGY BASED FIRMS	179
11.5	EIGHTEEN RESEARCH-BASED LESSONS FOR A WOULD-BE INTERNATIONAL, HIGH GROWTH, NEW TECHNOLOGY BASED FIRM	181
11.6	RESEARCH IMPLICATIONS FOR GOVERNMENT	182
11.7	SOME BRIEF, CONCLUDING OBSERVATIONS ON 'THEORY'	183
11.8	...AND FINALLY: AREAS FOR FUTURE RESEARCH	184

APPENDIX

A APPENDIX: DEFINITION OF HIGH-TECH INDUSTRIES 200

B APPENDIX: THE QUESTIONNAIRES..... 202

C APPENDIX: CASE STUDY EVALUATION GRID..... 210

D APPENDIX: ADDITIONAL TABLES FOR CHAPTER 4 218

E APPENDIX: ADDITIONAL TABLES FOR CHAPTER 6 224

F APPENDIX: ADDITIONAL TABLES FOR CHAPTER 8 225

G APPENDIX: MATCHED PAIRS COMPANY PROFILES..... 231

 G.1 GERMAN COMPANIES..... 231

 G.2 UK COMPANIES 263

TABLES

Table 2-1	Overview of Case Studies in International Entrepreneurship	26
Table 2-2	Overview of Quantitative Studies in International Entrepreneurship	27
Table 3-1	Sample Composition after Stratification in Germany and UK.....	41
Table 3-2	Drawing Probability per Strata in UK and Germany.....	42
Table 3-3	Description of the Range of UK and German Questionnaire Responses.....	43
Table 3-4	Drawing Probability, Response Rates and Observation Weightings.....	44
Table 3-5	Summary of Adopted Case Study Methodology.....	45
Table 3-6	Upper and Lower Quartile Growth Rates in Surveyed Firms	46
Table 3-7	Selected Data for German Case Study Firms in 1998	48
Table 3-8	Selected Data for UK Case Study Firms in 1998.....	49
Table 4-1	Distribution of Firm Size at Start-up and in 1997 (%).....	55
Table 4-2	Distribution of Firms by Start-up Year (%)	58
Table 4-3	Distribution of Respondent Firms by Industry (%)	59
Table 4-4	Start-up Size, Size in 1997 and Average Annual Growth Rates According to Industries.....	60
Table 4-5	R&D-Activity, R&D-Intensity and Firm Size	64
Table 4-6	Average Number of Founders by Industries.....	66
Table 4-7	Founders with Joint Work Experience by start-up size and industries (in %)......	67
Table 4-8	Joint Working Experience, Start-up size and Share of Internationalisers (in %)......	67
Table 4-9	International Experience Before First International Sales (in %)......	68
Table 4-10	Classification of Best-selling Product and Share of Internationalisers (in %)	71
Table 4-11	Product Requirements and % Share of Internationalisers	74
Table 4-12	Technologies Used and Share of Internationalisers by Firm Size.....	76
Table 4-13	Internationalisation as Part of the Business Plan.....	82
Table 5-1	Propensity of Internationalisation – Results using a Probit Model.....	89
Table 5-2	Probability of International Sales Using the Number of Market Entries as the Threshold in a Multinomial Logit Model.....	94
Table 5-3	Probability of International Sales Based on the Degree of Internationalisation as the Threshold in a Multinomial Logit Model.....	95
Table 6-1	Descriptive Statistics on the Degree of Internationalisation	99
Table 6-2	The Degree of Internationalisation.....	102
Table 6-3	The Degree of Internationalisation (Share of Non-Domestic Revenues) - Tobit Model –	104

Table 7-1	Hazard Function Results for the Timing of Internationalisation	113
Table 7-2	Born Internationals, Late Internationalisers, Planning to Internationalise vs. Domestic Firms: Results Using a Multinomial Logit Approach.....	116
Table 8-1	Geographical Focus of International Activities.....	118
Table 8-2	First and Current Entry Modes	120
Table 8-3	Determinants of Choice of Entry Mode – Results of the Probit Model.....	122
Table 9-1	Productivity and International Business Activities	132
Table 9-2	Sales Growth Regressions	142
Table 9-3	Employment Growth Regressions.....	143
Table 9-4	Determinants of Fast Growth and Slow Growth of Firms Multinomial Logit Model.....	146
Table D-1	Size and Share of Internationalisers (in %)	218
Table D-2	Age and Share of Internationalisers (in %).....	218
Table D-3	Industry and Share of Internationalisers (in %).....	218
Table D-4	R&D, R&D-Intensity and Industry.....	219
Table D-5	Transition Matrices: Shortages of Skills at Start-up and at the time of the survey.....	219
Table D-6	Product/Service Characteristics and Firm Size (in %)	222
Table D-7	Product Development and Commitment to International Sales in the Business Plan.....	223
Table E-1	Differences between Born Internationals, and Late Internationalisers <i>versus</i> Domestic Firms: Results using a multinomial logit approach	224
Table F-1	Probit-Regression Models for Generating Instruments.....	225
Table F-2	Productivity Growth by Industry, Size, Start-up Year and Internationalisation	227
Table F-3	Sales Growth by Industry, Size, Start-up Year and Internationalisation	228
Table F-4	Employment Growth by Industry, Size, Start-up Year and Internationalisation	229
Table F-5	Probit Models for the Determinants of Fast Firm Growth	230

FIGURES
