Imperial College London

ICTNET Workshop n. 2

ICT, Intangibles and Innovation

Imperial College, London
11-12 April 2011

OECD

funded by the European Commission. Further details of the first workshop held in Parma on 16-17 December 2010 can be found by clicking here.

The goal of this second workshop is to bring together leading researchers on the economics of information and communication technologies (ICT) in order to discuss recent scientific contributions and outstanding policy challenges. Particular emphasis will be placed on **ICT, R&D and intangibles** and **ICT-enabled innovation**. Theoretical, empirical, experimental and policy oriented contributions are welcome.

Topics of Interest:

- Developments in the definition and measurement of intangible assets and their association with ICT, at macro and micro levels
- Knowledge links within and between firms, and relationship to innovation
- Complementarity of ICT, R&D, skills, and intangible measures
- Analysing innovation and ICT by firm-level data linking
- ICT, knowledge flows and innovation networks
- Knowledge, growth and the crisis

Scientific Committee

Irene Bertschek (ZEW Mannheim, Germany),
Francesco Daveri (University of Parma, Italy),
Vincenzo Spiezia (OECD),
Jonathan Haskel (Imperial College, London, UK),

Confirmed Keynote Speakers

John Van Reenen, Centre for Economic Performance, LSE, London, UK
