# 5<sup>th</sup> Mannheim Energy Conference

Mannheim, Germany, May 19 – 20, 2016

The Centre for European Economic Research (ZEW) and the Mannheim Centre for Competition and Innovation (MaCCI) are pleased to announce the 5<sup>th</sup> Mannheim Energy Conference on May 19–20, 2016. International scholars and practitioners in the field of energy economics are invited to discuss the lessons learned from deregulation, new opportunities and future challenges. The conference seeks to provide a stimulating environment for debates on issues fundamental to the energy industry, the policy implications of recent research, and new research questions arising from energy market regulation and policies. Advanced theoretical, empirical, and policy-oriented contributions on all aspects of the economics of energy markets are welcome. A by no means exhaustive list of topics:

#### Competition and Investment in Electricity Markets

- Competition in wholesale, retail, and balancing markets
- Power market design, capacity markets, and competition policy
- Investment in power generation and demand side management

#### Infrastructure and Regulation

- Regulatory framework and incentives
- Investments in energy infrastructures
- Reliability and security of energy supply
- Integration of European power markets

#### Sustainable Energy Transition

- Instruments to achieve environmental policy goals
- Transition costs and financing of the energy transition

#### Energy Demand, Energy Efficiency, and Employment

- “Energy poverty” and distributional aspects of energy policies
- Modelling issues and sectoral analysis of energy demand
- Challenges of energy efficiency
- Energy economics and employment

#### Energy Innovation

- Technological and organisational innovation in the sector of energy equipment, production, and distribution
- Adoption and diffusion of energy innovations
- Role of intellectual property rights

#### Special Practitioners' Session
